Bayard Taylor.

The Philadelphia Telegraph gives the following sketch of the life of our new Minister to Germany. He was born in Chester county, Pennsylvania, in 1825, and when a lad was apprenticed to the printing business. He traveled in Europe, mostly on foot, in 1844-45, and on his return published an account of his travels. He then became editor of a paper in Phoenixville for one year, and afterward became a contributor to the *Literary World* and the *New York Tribune*, subsequently becoming a member of the editorial staff of the latter, also a stockholder in the association. On breaking out of the gold fever he visited California, returning in 1850 by the way of Mexico; and a year later left the United States on a third tour, from which he returned in 1853, having traveled over fifty thousand miles in Asia, Africa and Europe. In July, 1856, he set out upon a fourth tour through Northern and Eastern Europe, returning in 1858. In 1862 he became Secretary of Legation at St. Petersburg, and 1863 Charge d'Affaires there. He had previously married a daughter of Professor Hansen, the distinguished German astronomer. Upon his return from Russia, in 1864, Mr. Taylor devoted himself to writing and lecturing. He revisited California, and made a somewhat protracted stay in Colorado and the region once known as the Great American Desert, in 1864 and '67. In 1871, with a party of friends, he traversed the route of the Northern Pacific Railway, making an excursion into Manitoba. He had occasionally mingled volumes of poetry among his descriptive works, but until 1863 he had never attempted anything in the way of fiction, in which year his first volume appeared, and has been succeeded by others, all of which have been favorably received. His principal works of travel have been translated into several languages, and have been widely read. Mr. Taylor has given particular attention to German literature, for which class of studies he has a natural bias. He will be at home in Germany, and no American who could be named would be more heartily welcomed at Berlin. It may be said, moreover, that while this will be called a Pennsylvania appointment, and while Mr. Taylor claims his home to be in Chester county, he is practically a New Yorker. The appointment is one which does credit to the administration and is in the line of genuinely honest government.

The newspapers are fond of telling stories about the cowardice which women are alleged to show in the presence of a mouse. A severe masculine censor once declared that the most grave and wise gathering of women, for the most important and serious purpose, could be utterly thrown off its balance by the letting loose of a mouse in the room. That was men's theory. Here is fact:— "While a Judge was holding Court at Van Nuys, O., a few days ago, a mouse took advantage of his preoccupation and climbed up inside his pantaloons. The attorneys and attendants became aware of the situation when the Judge suddenly gave a jump, clapped his hands to his legs and stamped on the floor. The Sheriff rushed to the rescue, and the spectators rose in their seats, not knowing what was about to happen. The Judge whispered to the Sheriff, a lawyer shook the intruder out, and in the general confusion that ensued, the mouse escaped." Fancy the howl of derision that would have gone up from "the superior sex" if this had happened in a court presided over by a woman!

THE INTERMARRIAGE OF COUSINS.—Two double cousins married, perhaps, eighty years ago. They are now dead. They lived in Harris Co., Ga., and raised twelve children, all of whom lived to be sixty years old and upward. Alternately a deaf and dumb infant was born, making six of sound body, and six afflicted. The six deaf and dumb children lost their sight at sixty years. "Three of the unfortunates are, or were, boys (we don't know how many live or have died) and three girls."—*Columbian Enquirer*.

CHEESE FRITTERS.—Slice thin a half dozen large, tart apples, and prepare half as many thin slices of cheese. Beat up one or two eggs, according to the quantity required, and season high with salt, mustard and a little pepper. Lay the slices of cheese to soak for a few moments in the mixture, then put each slice between two slices of apple, sandwich style, and dip the whole into beaten eggs; then fry in hot butter like oysters, and serve very hot. These fritters are an addition to any breakfast table.

WM. R. CHAMBERLAIN

Law vs. Lawlessness.

The San Francisco *Alta* of March 28th said editorially:

"A number of citizens have formed a Tax-payers' League to consider the extraordinary condition of affairs at present existing. They cannot understand why a blustering bully should be allowed to threaten the lives and property of citizens night after night and every Sunday with impunity. They cannot understand why a brutal fellow can be allowed to coarsely exhibit a hemp noose on a public platform and say that he will hang a Senator before the rising sun. They cannot understand why a reckless ruffian can receive police protection in breaking up a meeting which he had no part in calling. They cannot understand why prosecutions have not been commenced against this persistent law-breaker and his satellites, and they propose to employ counsel to inquire into all these things and many others, and find out how it is. They propose to restore the condition of tranquility, when real estate will have a price in the market and will find purchasers; to encourage capital to again seek investment here; to have incendiary harangues stopped; to make it imprudent to utter threats against life; to provide for holding public meetings decently and in order; to impeach police captains who do not discharge their duty; and to do a number of other kindred things, which are at present neglected. This seems like a large contract, but it can be filled to the letter. The people have endured long enough the threatenings of Kearney and his gang, and have taken hold of the job in earnest."

That there is just cause for such a league as the above must be patent to the minds of a large and excellent class in society. In further evidence of our assertion the following late utterances of Kearney find application:

The German section of the Workingmen's party of the United States met Wednesday evening and was addressed by Kearney, who, in the course of his remarks, said that if the citizens wanted to organize a Vigilance Committee in opposition to the Workingmen, all he wanted was for the authorities to stand aside and let both parties have fair play and the community would see one of the damndest fights ever heard of. He also suggestively remarked that San Francisco is a wooden city, and then went off in a brilliant peroration descriptive of the fate of Moscow, and predicted that if the Vigilantes moved one step to break up the Workingmen's party, San Francisco would meet the fate of the ancient Russian capital.

These expressions speak for themselves. A continuation of Kearney's success and he will carry his intimations into effect. When that time comes then communism dies in California. So will many men. The rights of the laboring man is one thing, but Kearneyism is quite another. Absolute violation of right and law will not redress working men's grievances.

The language of Kearney is analogous to that of the leaders of the Reign of Terror in France after they had beheaded Louis XVI. If Kearney persists in his aggressive and mob-inciting speech and action, someone having his fellow citizens' good in view will do the working men a just service by reenacting the heroic deed of Charlotte Corday, when the infamous Marat was leading the French populace into the jaws of death.

The tremendous rush of home produce to foreign markets remains unabated. For the week ending March 17 the exportations from New York were \$3,154,874 against \$4,794,472 for the corresponding week of last year; and for 1878 so far, the exports of New York are \$75,187,785 against \$56,700,000 for the same period of 1877.

The French and Mexican newspapers of the City of Mexico say that Minister Foster is an obstacle in the way of settling the difficulties between the United States and Mexico, and that he is actuated by personal motives.

The *Republican* says in the suit for damages just commenced by the Eureka Consolidated against the Richmond Consolidated Mining Company the amount claimed is \$2,450,000.

An explosion occurred yesterday in the Opedale colliery, North Staffordshire, England, resulting in the death of thirty-five miners.

Grand Duke Nicholas is enjoying himself in Constantinople. He will probably remain there a week hobnobbing with the Sultan.

"Sagedom."

A vendor of peanuts on South U street, Virginia City, by the name of Mr. Birnbaum finds that the way of the transgressor is hard. The law has him for selling whisky to Indians. Pass him over to Kearney.

A friend writing to Prof. W. F. Stewart thus speaks of the Navajo mine at Tuscarora: "Navajo is looming up, and we all think that in sixty days from now it will be the leading mine of the camp. The ore on the 150 level is full of wire, and native silver for nearly 300 feet, with the ledge from three to four feet in thickness. The Independence mill is running on Navajo ore and is paying well. Sixty-four tons of that ore, which has been lying in the street at the Young America ever since they commenced work at the mine, was worked at the Independence mill and yielded over \$3,400, nearly \$2,900 of which was in gold."

Carrie Clarke, daughter of Mrs. Sarah Jane Cooper, was married to J. M. Ward, the actor, in San Francisco last Tuesday. The ceremony was performed at 2 o'clock in the afternoon, and Mrs. Ward started for Virginia City at 4:30. The happy bride is now in Virginia City and Ward in Frisco.

The Standard new shaft at Bodie was down 303 feet. On the 16th the company shipped \$16,387, the first for the month.

Dennis O'Keefe was run over and killed by a butcher wagon in Eureka on Monday last.

The Grand Prize on Tuesday shipped bullion worth \$10,518 44.

Diphtheria is becoming alarmingly prevalent in Virginia.

A Chinaman was arrested in Virginia City Wednesday on a charge of stealing some "switches" of human hair. They wouldn't carry off a hot stove—positively wouldn't. Generous and honest to a fault are the Chinese.

Eastern News.

St. Petersburg, March 28.—The dead-lock continues. It is stated that Russia is quite ready to make considerable concessions if it can be shown they are for the general good and that the Powers will enter the congress with a desire of arriving at a durable settlement and not simply to undo what has been done. It is believed, however, that the English Government is animated by a very different spirit.

Berlin, March 28.—The *Tagblatt* says Prince Bismarck's latest attempt at mediation between England and Russia has thus far been unsuccessful. This proposal was that Russia should indicate beforehand the points in the treaty which she agrees should be discussed at the congress. Russia has not yet replied to this proposal.

The Prussian Chamber of Deputies to-day voted the salary of the Vice President of the Ministry, but rejected a motion for transferring the administration of crown lands from the Ministry of Finance to that of Agriculture, and for creating a Ministry of Railways. Both these propositions were supported by Prince Bismarck and opposed by the National Liberals.

On account of the determination of the National Liberals to reject the bill which Bismarck strongly urges for a special Railway Ministry, it is not impossible that Bismarck will dissolve the House and appeal to the country.

LONDON, March 28.—A correspondent at Paris telegraphs: It is reported to-night that the majority of the Left are inclined to accept a compromise with the Senate on the budget dispute. Should this disposition prove fallacious a serious conflict would appear to be inevitable.

The colliers of Dean Forest, England, have received notice of five per cent. reduction in wages. The owners of South Yorkshire and North Derbyshire collieries have accepted the compromise proposed by the men, and wages have been reduced five per cent. instead of seven and a half.

Morrissey, who returned to New York from the South 28th inst., is much better, he will probably not take his seat in the Senate during the present session. He will remain in New York a few days and then go to Saratoga or some other quiet place.

Geo. H. Marr, editor of the Santa Rosa Times, died in Santa Rosa on the 23d instant, aged 35 years.

Osman Pasha has been appointed Commander in Chief of the Turkish army.

Under the Veil.

To those who appreciate those occasional revelations of the inner self the following extracts from Harry Mighela's letter to the Carson *Appeal* will be of more than passing interest. Mr. Mighela, first let us say, is confined to his room in the fifth story of the Palace Hotel, San Francisco. All his companions had left him for a few hours alone, and he sits in his window with many wrappings about him and looks down the busy street. But hear him:

In the square below me stands the Lotta drinking fountain. Ladies and gentlemen, hoodlums and Young Men's Christian Associationers, nursemaids and biddies, young and old, black and white, all stop and drink. So Lotta extends a perpetual invitation to take a drink, and the cordial greeting meets with many a hearty response. S'pose it ran ale! S'pose those weeping nozzles gave out champagne! Alas! a pious nun with a great white flying cap on her head stops to slake her thirst at Miss Lotta's grateful monument, and I am silenced. But, sitting here, cooped up, doomed to a diet of milk which is to fit me like a lamb for the slaughter, why shouldn't I sigh for something more exhilarating than water, something more assuring and companionable than town pump!

Gracious! but aren't the horses handsome and the ladies gay; aren't the coupes and landaies lithe and easyful; and don't the bay yonder, with its ships look cityful and majestic.

There go the street cars with their eternal jingle; yonder trudges the old French flower woman with her beautiful wares; here's a trim, fastish-looking young fellow behind a monstrous fine bay—a dainty stepper; across the way stands a wagon heaped full of golden oranges; and there, oh there goes a hearse!

New York, March 28.—A special dispatch from London says it is stated that a Russian camp of 200,000 men is forming at Khohland, destined to operate against India.

LOCAL AFFAIRS.

Jottings.

The Cupola furnace will be ready for operation next week. The iron and mason work is now nearly completed. This time for success.

Mark Hopkins, one of the C. P. R. R. Directors, died to-day in San Francisco.

Sixteen coaches of emigrants have passed through here to California, during the past three days. What these deluded persons will do in California these hard times God alone knows.

Elsewhere will be found a local ad. directing those who wish anything in the harness line where to go.

Mrs. Moe's funeral was largely attended this afternoon. The Odd Fellows and Champions of the Red Cross were out in full regalia, while many other friends were present. The funeral rites both at the church and cemetery were quite impressive.

IMPROVEMENT.—Trade has improved during the past month with our merchants and money is easier than it has been. There is a larger business done in this town than many who seriously feel the hard times are led to presume. The trade in cattle and hay has greatly enlivened the trade market, while the open weather has enabled those at a distance to come to Reno and do their trading. The late rains have and will prove of great benefit while every industry anticipates a revival in business. As we take it, our dull times will gradually disappear. We need in these times to cast our eyes about us that every means of adding new strength and life to our town and county may promptly be acted upon.

WORKINGMEN'S MEETING.—To-morrow evening the Workingmen hold a public meeting at the Reno Opera House. The meeting will be called to order promptly at 7:30. All those who signed the roll are requested to be present to pass upon the report of the Committee on Constitution and By-laws of the party. Several speeches will be made during the evening. The President and others of the new move say that it is not the intention of the Nevada Workingmen to be guided by the acts and law-defying expressions of Kearney. They say: "We mean business, but law abiding; we believe we have just grounds for action and shall maintain a lawful party organization."

COUNTY TAXES.—The County Commissioners meet next Monday. Among other business they will determine the percentage of tax to be levied. We presume the county tax this year will be \$1.25 on the \$100 of taxable property. The county expenses last year aggregated \$87,000. The amount of taxable property was something over \$3,500,000 and the license tax was nearly \$10,000. A tax of \$1.40 on \$1,000,000 gives a tax revenue of \$56,000, which with the license tax makes a total of \$66,000, or a less amount than the past years' expenses. But the Commissioners say that this year's county expenses will not be as large as they were last year.

ADVERTISE.—Three young wizzards with large handbills announced that they would make a grand legendarian exploit. To be economical they did not advertise in the Gazette or Journal nor pass around the usual combs. The result was no audience and the sudden departure of the trio. They have paid for the lesson.

PRISONERS.—Sheriff W. H. Hayek, of Nye county, last night brought three prisoners from his county down to Reno, and this morning took them to Carson. Their names are D. Tahig, Tom Fitzgerald and Geo. Donaldson. Their terms of incarceration are one and a half and two years.

ASSESSMENT.—The Trustees of the Justice Mining Company, this afternoon levied an assessment on that stock of \$1.50 per share. This means more hardships for those who hold Justice and have not the money to dabble in stocks.

Blaine's handwriting looks like two Massachusetts lobsters trying to tear each other's claws off.

He is a relative of the local reporter of this paper.

Parties who wish fish bait may procure minnows from A. Jose in the Journal building, Second street.

Madame Rentz's Female Minstrels.

Deacon Parkinson is real mad with the Rentz female minstrels now. It seems that he wrote up their show as vulgar, whereupon the manager cancelled his free tickets and the Deacon couldn't get in. Now he says it is the most naked, undressed, disgraceful exhibition he ever saw (where have your eyes been Deacon all these years) and he wouldn't look at it anyhow.—S. F. Stock Report.

The Virginia city Chronicle, commenting on the Rentz Female Minstrel Troupe, says that the scantiness of their costumes shows that Winter is over, and foretells the approach of Spring, and adds that Viola Clifton, as a lightning stripper, cannot be excelled.

Madame Rentz's Female Minstrels and Mabel Stanley's London Burlesque Company, now performing at Bush Street Theater, have attracted much attention and given rise to much discussion, and thus the house has been crowded night after night. There are some excellent voices among the singing ladies, notably those of the Love Sisters, and the first part, which is devoted to minstrelsy, is as enjoyable a part as any of the programme. The burlesquers are dashing, shapely women, who do not allow any surplus clothing to obstruct the free action of their limbs.—S. F. Bulletin.

The Alta, Chronicle, Denver Tribune etc, all say this troupe drew crowded houses. Next Monday night they appear at Smith's Academy of Music. One paper says that there is much that is objectionable about their show. Others do not in the least condemn but speak of them in high terms. We have not seen the troupe, and like our good brother Parkinson, are modest diffident folk. What had we better do? We shall go and see them and if we are not a poor prophet will find the house crowded. The reason we all know.

The Wisconsin delegation have waited on President Hayes and repudiated Howe's speech.

There don't seem by this much necessity for Hayes to reply to Howe's ungenerous strictures. There is "an old saying," "give him a rope and he'll hang himself." The President's enemies are making good use of the rope, one after another swings out, kicks a little, perhaps creates a zephyr, but when he has disappeared the President stands on additional vantage ground, and the small train of obsequious mourners skulk away to their dens as if quite ashamed that they had once kissed an honest man.

THEY WILL DRINK.—Bodie is getting to be a tough place for bums and old beats. The latest dodge one of them played on a prominent saloon-keeper was to step into the saloon and sit down alongside the whisky barrels. As no one was looking he turned the faucet and let the whisky run into his boot-top. When he concluded he had about enough he shut off the flow, walked out, and in two minutes was seen behind some friendly shelter dividing with a friend.—Bodie Standard.

Advices from the city of Mexico say that the French are doing everything to throw the Mexican Government into a hostile attitude towards the United States. They fear a commercial treaty will be made with the United States which would be injurious to their interests, as the commerce is now in European hands.

The Reno wants Nevada to have an insane asylum of her own. Also, that the office of Surveyor General shall be abolished. Also that Justice Court juries shall be made a matter of the past. These are all good propositions, not new, but well advised, and we second the motion.

Mike McGowan, the man-eater, whose three months sentence in the Elko county jail expired a few days ago, returned to his mire like the hog, and has just had his trial in Tuscarora for demolishing glass etc. McGowan would be a capital subject for the Rock Creek vigilantes or for Kearney.

Archbishop Labastida, of the City of Mexico, has been created a Cardinal. He is the first Mexican Cardinal ever appointed, which is significant of the fact that Rome has her eyes on America. The full import of the creation of a Cardinal for Mexico, we presume, is not comprehended by but comparatively a few persons.

The Times-Review complains that Tuscarora is becoming one of the quietest towns in the State.

Go to the new harness shop at L. W. Lee's stable, corner Fourth and Sierra streets.

No man with a strong arm has any business to let a girl shiver coming home from singing school.

The California Legislature, to the delight of the people of that State, will adjourn next Monday sine die.

Democratic Legislatures in the golden State are not a success. During Governor Haight's administration the Legislature, which was strongly Democratic, came near passing subsidies which would have bankrupted Southern California. This Legislature has been more successful, but scarcely less dishonest and stupid. As for instance one of its latest bills which has passed both Houses will, if approved by the Governor, put \$100,000 into the pockets of the County Clerk of San Francisco county. This vast sum will be taken from all persons doing business in San Francisco.
